

ADMINISTRATIVE NOTICE 97-22

SUBJECT: BUSINESS INVESTMENT AND JOBS EXPANSION TAX CREDIT – Small Business Investment and Jobs Expansion Tax Credit (Small Business Credit) – Notice of Inflation Adjustments for Tax Years Beginning in 1998.

A “**small business**” may claim the small business investment and jobs expansion tax credit allowed under W. Va. Code § 11-13C-7a, when its qualified investment in real or tangible personal property purchased or leased for business expansion in this State, as defined in W. Va. Code § 11-13C-6, results in such small business hiring new employees to fill at least ten (10) “**new jobs**” it created in this State as a direct result of the purchase or lease of such qualified investment property.

The law defined “**small business**,” as of March 10, 1990, to mean a “business which has an annual payroll [as defined in subsection 11-13C-14(e)(6)(A)] of one million seven hundred thousand dollars or less, and annual gross receipts [as defined in subsection 11-13C-14(e)(6)(B)] of not more than five million five hundred thousand dollars[.]” W. Va. Code § 11-13C-14(e)(6) (emphasis added).

“**New job**” was defined by incorporating the definition of “new job” in subsection 11-13C-3(b)(14), with the additional requirement that the median compensation of such new jobs cannot be less than eleven thousand dollars per year. W. Va. Code § 11-13C-7a(c).

Dollar amounts stated in these definitions of “**small business**” and “**new job**” are subject to annual adjustment for inflation. This adjustment is determined by the Tax Commissioner using the methodology described in subsection 11-13C-7a(1) through (4). The 1998 inflation adjustment factor is based on the percentage by which the Consumer Price Index (CPI) for calendar year 1997 exceeds the CPI for calendar year 1987. For this purpose, the CPI for any calendar year is the average of the Federal Consumer Price Index for the twelve month period ending on August 31st of such calendar year. W. Va. Code § 11-13C-7a(A)(2). The CPI for 1997 is 159.60000000 and the CPI for 1987 is 111.9833333333. Based on these figures, the inflation adjustment factor, for purposes of § 11-13C-7a, for tax years beginning in calendar year 1998, is 1.42521208513.

Accordingly, for tax years beginning during calendar year 1998:

“**Small business**” means a business which has an annual payroll of two million, one hundred thirty-seven thousand, eight hundred dollars (\$2,137,800) or less, and annual gross receipts of not more than seven million, one hundred twenty-six thousand, fifty dollars (\$7,126,050); and

“**New job**” means a “new job” as defined in W. Va. Code § 11-13C-3(b)(14): **Provided**, That the annualized median compensation of such new jobs shall not be less than fifteen thousand, six hundred fifty dollars (\$15,650) per year.

A summary of the applicable inflation-adjusted Small Business Credit criteria, by calendar year, for tax years beginning in such years, follows:
