ADDITIONAL INSTRUCTIONS

All wells listed on the enclosed printout are required to be reported by your company unless they were sold prior to July 1, 2025. If sold, you must reply under separate cover listing NRA # and to whom sold (including complete name and address). If this data is not received and no return is filed by the new company, those accounts will be treated as having not properly filed a return and the tax ticket may be assigned to your company. In addition, any new wells acquired must be reported. If wells were sold prior to July 1, 2025 total calendar year 2024 production data must be supplied to the reporting entity for full year reporting.

The producing formation determines the nature of the future income stream (estimated life of the well) and, therefore, is a critical factor within the valuation process. Failure to provide this information will result in the use of lowest decline rate, thus yielding the highest value.

You must provide duplicate copies of the return(s) to appropriate county assessors' office. Do not provide the data in another format unless requested by the county assessor.

If the royalties are not paid by you but are paid by another company, you must acquire this data from the other company before submission of your return. The Department will attribute royalties listed as paid by a third party, unknown or not given to the producer. No exceptions will be made.

Notice of tentative appraisals may be provided **if requested** (and received) **in writing prior to October 15** this year. You may mail, fax, or email your request. Requests received after that date will be processed, but information may not be received in time for changes/corrections to be made prior to closure of property books.

After having carefully read all instructions, please **sign and notarize**. Note: One notarization for all returns is sufficient. Also, please make any name or address changes on label below notarization.

Should you have additional questions or comments, please feel free to contact the Oil and Gas Unit at (304) 558-0781 or PTDOILGAS@wv.gov
