1.1.a. In recognition of:

The experience, knowledge, and technical, and legal expertise of the Tax Department;

Code §8-1-5a et seq. and W. Va. Code §8-13C-1, et. seq., and were set forth in extenso therein.~~

4.4. Collection by Vendor. -- Each vendor shall collect from the purchaser municipal sales and ~~service tax and municipal~~ use tax imposed upon each sale of tangible personal property and taxable service made or furnished in the municipality at the same time and in the same manner as each vendor collects from the purchaser the ~~state~~ State consumers sales and service tax and use tax. Municipal sales and ~~service tax and municipal~~ use tax shall be added to and constitute a part of the sales price.

4.5. 4.7. Payment of Use Tax. -- When the purchaser of tangible personal property, custom software or a taxable service is required to pay State use tax measured by the purchase price and the use is in a municipality that imposes a municipal sales and use tax, municipal use tax must be paid on the purchase price to the Tax Commissioner at the same time that the State use tax is paid.

4.7.1. Exception. -- Situations will exist where a vendor located in West Virginia collects State sales tax at the time the sale is made but does not collect municipal sales tax because the sale took place at the vendor's store, which is not located in a municipality, or is not located in a municipality that imposes a sales tax. When the purchaser then uses or consumes the products in a municipality that does imposes a sales and use tax, the user owes municipal sales and use tax based on the purchase price of the products used or consumed within the municipality.

Example 1. -- A contractor purchases building materials for \$500 from a seller located outside a municipality. The contractor pays State sales tax at the time of purchase. The contractor then uses the building materials in a construction project located within a municipality that imposes a municipal sales and use tax. The contractor must remit the municipal sales and use tax to the Tax Commissioner based on the \$500 purchase price and the tax rate imposed by the municipality where the materials are used.

Example 2. – A business located in a municipality that imposes a municipal sales and use tax buys office supplies for \$500 from a business located outside the municipality. The business pays State sales tax at the time of purchase. The business then uses the office supplies at its place of business in a municipality the imposes a sales and use tax. The business must remit municipal sales and use tax to the Tax Commissioner based on the \$500 purchase price and the tax rate imposed by the municipality where the materials are used.

~~4.7.~~ 4.8. The Tax Commissioner may prescribe any processes, procedures, forms, schedules and other administrative requirements as determined to be useful or convenient for the efficient administration of the municipal consumers sales and service tax and use taxes addressed under this rule. The Tax Commissioner may require certified copies of the ordinance imposing the taxes, or changing the rate in a tax, along with a certified description of the boundaries of the municipality, the nine-digit zip codes for addresses located within the boundaries of the municipality, the certified designation of a municipal official to whom all notices and communications are to be sent and from whom all notices and communications are to be sent, and certified documentation of other information the Tax Commissioner may need to administer, collect and enforce the taxes administered under this rule.

~~4.8.~~ 4.9. Periodic Cost Recovery Fee Administrative Notice -- To the extent that they may be reasonably subject to computation, the Tax Commissioner may annually issue an Administrative Notice, to be published on or before the first day of June of each year in the State Register, setting forth projections or determinations of:

~~4.8.a.~~ 4.9.a. The projected beginning and ending balances of the accumulated cost account for the fiscal year beginning 30 days after the June 1 issuance date;

~~4.8.b.~~ 4.9.b. The projected offsets and adjustments to the accumulated cost account projected for the fiscal year (principally the projected periodic cost recovery fee);

~~4.8.c.~~ 4.9.c. The reconciliation adjustment that will be applied to determine allocable revenues in the fiscal year;

~~4.8.d.~~ 4.9.d. Tax Department's projection of the amount of the periodic cost recovery fee that will be applied against net tax revenues during the fiscal year;

~~4.8.e.~~ 4.9.e. The projected amount of total allocable revenues for the fiscal year;

~~4.9.~~ 4.10 The Tax Commissioner may elect to issue a notice other than, or in addition to, an

~~4.11.~~ 4.12. The periodic cost recovery fee is an amount retained from municipal consumers sales and service tax and use tax proceeds by the Tax Department to recover those costs reflected and aggregated in the accumulated cost account.

~~4.11.a.~~ 4.12.a. Instead of applying the periodic cost recovery fee to offset net tax revenues in a given period, the Tax Department may, at the election of the Tax Commissioner, apply a projected periodic cost recovery fee against net tax revenues for a given period and then may add or subtract a reconciliation adjustment to net tax revenues for the next succeeding period, to reconcile the difference between the projected periodic cost recovery fee as applied in that previous period and the periodic cost recovery fee actually attributable to that previous period.

~~4.11.b.~~ 4.12.b. The periodic cost recovery fee shall not apply to the collection by the Tax Commissioner of the District Excise Tax provided for in W.Va. Code §7-22-1 et seq. and W.Va. Code §8-38-1 et seq. as that collection is not provided for pursuant to W.Va. Code §11-10-11c and other applicable provisions of law, as that fee is limited to the fee authorized by W.Va. 5.2.a. May separately remit the amount collected and pay the amount due and owing on

purchases made using the direct pay permit procedure.

5.2.b. May credit the amount of tax paid on purchases for which an exemption is claimed against the amount of tax collected and:

5.2.b.1. if the amount collected is greater than the amount of tax paid on exempt purchases, the person shall remit the difference to the Tax Commissioner; or
